

ORION

COROJO

Model: Corona
Ring Gauge: 44
Length: 5.5 inches

In the first third, the Orion comes out the gate with a distinctly sweet spice that dances on your palate like a salsa. It's not a punch to the face, but more double pirouette on the palate that makes you say "wow". As I delve further with every draw, the cedar notes join the party, adding a layer of elegance to the experience.

As we ease into the second third, the Orion takes us on a stroll through the earthy side of life. Earthy notes move comfortably to the centre of the flavour profile and the cocoa notes start to shine. Offering rich & dark complexities to the flavour. The burn is solid, and the construction is very good.

As we reach the final third, the Orion has reached its heights and begin its decent. The spice that introduced itself in the first act begins to move to the back of the flavour profile, earth and wood take centre stage with hints of leather tying the whole experience together in a harmonious crescendo.

The Orion by Italo Dominican is a puro that doesn't just smoke, it lights up your senses. The Corojo wrapper adds a layer of complexity and construction is nothing to sniff at. This cigar is best paired with rum or whiskey. So, if you're in the mood for a cigar that will light up your evening or night, make it an Orion night.
